

Workshop 1: Encouraging Walking and Cycling

How do you make this street more walkable and bikeable?

- 1- Does this street encourage walking & cycling? Please provide a list of problems.
- 2- What are your recommendations for making this street more walkable and bikeable? Please provide a list of your recommendations.

Note: you are allowed to make any changes, but you are not allowed to change buildings (you can change building uses).

Note: You should keep all modes of transport (e.g., public transport, cars, pedestrians, & cyclists)..

Workshop 2: Pathway Diagram of Diabetes

Please create pathway diagram showing relationships between physical environment attributes (health determinants) and ‘Diabetes’ (as a health outcome).

Note: You need to show ‘what physical environment attributes’ and ‘how’, influence the health outcome.

Note: you can use A3 sheet and share the screen to discuss and complete the pathway diagram.

Workshop 2: Pathway Diagram of Diabetes
