

# FATHERS' COMMUNITY EVENT

The Perinatal Mental Health and Parenting Research Unit (PRIME-RU) invites you to our free online community 'meet the researchers' event. All fathers and expectant fathers are welcome.

## WHAT IS OUR AIM?

Parental mental health research involves mostly mothers from White, Western communities. PRIME-RU, set up by the Greater Manchester Mental Health NHS Foundation Trust, wants to make research relevant and helpful for all, including fathers.

Bringing people together seems like a great place to start- we hope you can join us!

## WHAT TO EXPECT:

- You will learn about PRIME-RU and our work on parenting and mental health
- You will have the chance to discuss your thoughts on parenting and parenting research
- We would like to discuss the possible research priorities for fathers and/or your community
- We would like to understand how to overcome fathers' barriers to involvement in research

**18th November 2021, 7:30-9pm**

**Online via Zoom  
(Details to be sent upon sign-up)**

**Contact us to book your place ASAP!**
