

Parents, we need your help!

Digital Assessment of Wellbeing in New Parents (DAWN-P)

- We have designed a smartphone app to help spot postnatal depression in new parents.
- We are inviting **parents of children under 3** to join our Patient and Public Involvement (PPI) Group.
- You do not need any previous research experience or qualification. You would be reimbursed for your time.
- You would help to design and develop the research study, contributing your ideas to the project.

- The PPI group will meet around 5 times a year, starting in **September 2022** (until December 2024).
- We will meet remotely using an online meeting platform (e.g. Zoom).
- At the end of the study, you will be invited to share the findings with local groups and services.

**If you would like to be involved,
please contact Emily**
